INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors Coos Soil & Water Conservation District Coquille, Oregon

I have reviewed the accompanying cash basis financial statements of the governmental activities and major fund of Coos Soil & Water Conservation District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statement taken as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with the cash basis of accounting. I believe that the results of my procedures provide a reasonable basis for my conclusion.

I am required to be independent of Coos Soil & Water Conservation District and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements related to my review.

Accountant's Conclusion

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with the cash basis of accounting.

Basis of Accounting

I draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared in accordance with the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. My conclusion is not modified with respect to this matter.

Supplementary Information

The supplementary information Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - Cash Basis - Governmental Fund Type - General Fund, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in my review of the basic financial statements. I am not aware of any material modifications that should be made to the supplementary information.

Other Reporting Required by Oregon State Regulations

The supplementary information titled Management Representation of Fiscal Affairs Required by Oregon State Regulations is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements but has been compiled from information that is the representation of management. I have not audited or reviewed the supplementary information, and accordingly, I do not express an opinion or provide any assurance on such supplementary information.

NOTES TO FINANCIAL STATEMENTS as of June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Coos Soil & Water Conservation District (District) are prepared on a cash basis which is comprehensive basis of accounting other than in accordance with Generally Accepted Accounting Principles (GAAP). All relevant Governmental Accounting Standards Board (GASB) pronouncements are applied.

The accounting and reporting framework and the more significant accounting principles and practices are discussed in subsequent sections of this Note. The remainder of the Notes are organized to provide explanations, including required disclosures, of the District's financial activities.

Organization

The District is a municipal corporation and therefore is exempt from federal taxes. It operates under the provisions authorized by Oregon Revised Statute for the purpose of providing local natural resource conservation information.

There are various other governmental agencies and special service districts which provide services within the District's boundaries. However, the District is not financially accountable for any of these entities and accordingly their financial information is not included in these financial statements.

Government-Wide and Fund Financial Statements

The government-wide statements and governmental fund statements are combined as allowed for single-purpose governmental activities. The Statement of Net Position and the Governmental Fund Statement of Assets, Liabilities and Fund Balance - Cash Basis are combined with adjustments to bring fund totals to the entity-wide totals on a cash basis. The Statement of Activities and the Governmental Fund Statement of Revenues, Expenses and Changes in Fund Balance - Cash Basis have also been combined with a reconciliation to entity-wide cash basis totals.

Governmental activities are financed primarily through grants.

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The financial activities of the District are conducted within the following major governmental fund:

General Fund

This is the general operating fund of the District. The principal revenue is from grants and expenditures cover normal operations.

Basis of Accounting and Presentation

The District's financial statements are presented using the cash basis of accounting. This basis recognizes assets, liabilities, net-position/fund equity, revenues and expenses resulting from cash transactions. This basis is a comprehensive basis of accounting other than generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS as of June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Restricted Assets

Assets whose use are restricted by agreement are segregated on the Statement of Net Position. Restricted resources are expended first to fund appropriations for which those restrictions are to be utilized. Grant funds awarded for specific projects are considered to be restricted.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The District's investment policies are governed by Oregon statutes. The statutes authorize the District to invest primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, high-grade commercial paper and the State Treasurer's Local Government Investment Pool (LGIP). See Note 3A.

The carrying value of cash and cash equivalents and investments approximates fair value.

Budgets

The District is not subject to Oregon Local Budget Law under ORS 294.316(6). Management prepares a budget for planning purposes only.

Fund Equity

The District reports according to fund balance classifications that comprise a hierarchy based on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. The following consist of fund balance categories:

Nonspendable fund balance - represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaid items.

Restrict fund balance - represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).

Committed fund balance - represents funds formally set aside by the governing body for a particular purpose. The Board may commit a fund balance by resolution and modify or rescind commitments.

Assigned fund balance - represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body.

Unassigned fund balance - is the residual classification of the General Fund.

NOTES TO FINANCIAL STATEMENTS as of June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fund Equity

The Board of Directors has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and lastly, unassigned fund balance.

Use of Estimates

The preparation of the financial statements in conformity with cash basis requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental fund statement of assets, liabilities and fund balance includes a reconciliation of differences between fund balances and net position. The adjustment reflects the difference in presentation of government-wide to fund financial statements.

The governmental fund statement of revenues, expenses, and changes in fund balance include a reconciliation of differences from fund balance to net position.

NOTE 3 - DETAILED NOTES ON ALL FUNDS

All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of the State Treasurer. The District has potential exposure to custodial credit risk if its balance exceeds \$250,000 FDIC as its funds are not in a qualified depository bank. Local Government Investment Pool (LGIP) \$ 8,341

The Oregon State Treasurer maintains the Oregon Short Term Fund (OSTF), of which the Local Government Investment Pool (LGIP) is a part. Participation by local governments is voluntary. The State of Oregon investment policies are governed by statutes and the Oregon Investment Council. In accordance with Oregon statutes, funds are invested as a prudent investor would do, exercising reasonable care, skill and caution. LGIP was created to offer a short-term investment alternative to Oregon local governments and it is not registered with the U. S. Securities and Exchange Commission. The state investment pool is not rated. The investments are regulated by the OSTF and approved by the Oregon Investment Council. At the end of the fiscal year, the fair value of the District's deposits with the LGIP approximated cost.
