

# What's in YOUR Water?

A Drinking Water Protection Workshop Sponsored by  
Coos Soil & Water Conservation District

## ABOUT OUR WORKSHOP:

Whether you're on municipal water, a community system, or a private well or spring, come join us for A FREE workshop about the importance of maintaining clean safe drinking water in our community.

- Learn how and where to access resources and technical assistance for your property.
- Share your water-related concerns.
- Sign up for **FREE** water quality testing!
- **Dinner will be provided!**

**Space is limited! Please Register NOW!**

27 SEPTEMBER  
2024

5:30 PM - 9:00 PM

631 ALDER ST.,  
MYRTLE POINT, OR 97458

## WORKSHOP HIGHLIGHTS:

### Municipal (City) Water:

Come join Myrtle Point Water Treatment Plant Operator Ryan Sherman for a presentation on the local water treatment process.

- Learn how rural communities treat and protect the stuff that comes out of your tap!

### How our local watersheds are studied and monitored:

Coos SWCD staff cover the results and findings from local monitoring and conservation efforts on the Coquille River in a presentation titled:

- "Everybody Drinks! Making the Conservation and Restoration Connection in Drinking Water Source Areas."

### State Programs and Resources:

DEQ's Drinking water Protection Program manager will give a short presentation on the connection between land and water quality.
